# WOOD'S CROP SPECIAL

Giving Timely Information and Prices of Seasonable Seeds

PUBLISHED BY T. W. WOOD & SONS SEEDSMEN RICHMOND VA.

FEBRUARY

PRICE EDITION

1942

## PRICE CHANGES TO DATE

Since our Catalog went to press there have been many changes in prices on FIELD SEEDS. This is due to short crops, heavy farmer and Government buying, and advancing markets.

Prices quoted in this "CROP SPECIAL" take the place of all catalog prices on field seed. Principal changes are in Cow Peas, Soja Beans, Seed Oats, Peanuts, Potatoes, Korean Lespedeza, Alyce Clover, and Poultry Foods. Most other prices remain the same, but markets definitely higher.

We strongly urge early purchases of your Spring and Summer seed requirements for both Farm and Garden. Stocks of many items will be exhausted at an early date

**PRICES QUOTED FOR IMMEDIATE ORDERS AND UNSOLD.**

## INFORMATION ABOUT BAGS

It is very difficult to buy any new burlap or cotton bags, owing to the fact that the United States Government has taken two-thirds of all the burlap for army use.

The cost of bags is a large item this year in the price of seeds—the packing cost on oats is 5c. per bushel; soja beans, cow peas, corn, and other items packed in 2-bushel bags is 8c. per bushel.

On this account we ask our customers' co-operation, by ORDERING THEIR SEEDS IN FULL BAG LOTS, if possible.

## WOOD'S SPRING OATS

Treated with Ceresan. Packed in 3-bu. bags  
Order in bag lots—broken bags 5c. bu. higher.

## WOOD'S GRAIN PASTURE MIXTURE

furnishes more grazing in less time and at less cost than any other spring crop. The grains are balanced with legumes to provide protein for growth and warmth during cold weather. Sow it for grazing before grass and clover pastures are ready, or as a nurse crop when seeding permanent grass and clover pasture mixtures. Although relished by all livestock it is particularly popular for poultry and hogs as it contains rape properly balanced with spring barley, oats, and rye grass, so that it cannot cause bloating. Protein is furnished by crimson clover, Canada field peas, hairy vetch and Austrian peas, which also improve the soil.

## WOOD'S GRAIN HAY MIXTURE

Makes a much heavier yield that is far more palatable and nutritious than oats or any other crop sown alone. It is a fine spring hay crop, easy to cure and relished by all livestock. It contains oats properly balanced with crimson clover, Canada field peas, and hairy vetch.

Sow both Mixtures 100 lbs. per acre. Prices: 100-lb. lots and over, 4 1/2 c. lb.; 25 to 99-lb. lots, 5c. lb.; less quantity, 6c. lb.

Wood's Grain Pasture and Hay Mixtures furnish an abundance of quick green feed in the early spring.

# WOOD'S HIGH-GRADE FEEDS

## POULTRY--PIGEON--DAIRY--DOG

There is no more constant source of income every month in the year than poultry, either in cash sales or in cutting down the grocery bill. A little extra attention will considerably increase this income.

Chickens need a well balanced diet to make a healthy, vigorous growth. We manufacture daily in our plant in Rich-
